

Martin Björk smelled Shawn Mendes in the armpit

NRJ was visited by the famous artist Shawn Mendes this week when he was in Sweden to promote his latest album. Martin Björk, host of the NRJ afternoon show, decided to interview Shawn in his own little way.

The interview is now spreading around the globe and press and fans ask the question: **"Why Is This Random Middle-Aged Man Sniffing Shawn Mendes' Armpit"**? The title taken from **Buzzfeed** who wrote about Martin's meeting with Shawn. **TeenVouge** writes: **"Shawn Mendes's Armpit Sniffed by Swedish Host Martin Björk"**.

"Shawn Mendes was extremely nice and everything went well until he thought I smelled badly in his mouth. But honestly, he told me later that I smelled perfectly fine. The guy has humor", says Martin Björk who hosts the afternoon show at NRJ.

"To smell celebrities under my arm is my gimmick in "Intimt med Björken" and of course, no exceptions were made for a world star. He smelled very good," concludes Martin.

Martin Björk is on air every day at NRJ's afternoon show, 14:00-18:00, with his radiopartner **Karolina Widerström**.
