Product Name: Label.m Therapy Rejuvenating Oil Mist
Revision Date: 04/07/2015
MSDS Number: 04311
Common Name: (Preparation)
Chemical Family: Silicone Fluid with Natural Oils
Chemical Formula: ***PROPRIETARY***
Synonyms: Finishing Spray, Glossing Spray
Product Use: For grooming of hair. This product is intended for leave in/on use.

CAUTION: Avoid fire, flame, heat and other sources of ignition.
Liquid dispensed from the container may be considered flammable until dry.

For International Shipping:

UN Code: 2286

Proper Shipping Name; Ethanol Solution

Contains: Pentamethylheptane <65.0%

24 HOUR EMERGENCY CONTACT INFORMATION:

Call: Chem-Tel Inc.
Domestic: 1-800-255-3924
International: 1-813-248-0585
Contract #: MIS0002940
Collect Calls Accepted

While the finished product(s) is not considered hazardous as defined in 29 CFR 1910.1200(d), this Safety Data Sheet contains valuable information critical to the safe handling and proper use of the product.

For external use only. Keep out of reach of children. Use only as directed.

2 HAZARDS IDENTIFICATION

Route of Entry: Eyes; Ingestion; Inhalation; Skin.
This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonably foreseeable use.

Target Organs: Unknown

Inhalation: Not expected to be irritating to the respiratory system.

MSDS GHS Safety Data Sheet

Overexposure may produce signs of alcohol intoxication.
Minimal respiratory tract irritation may occur with exposure to a large amount of material.

Skin: Not expected to be irritating, sensitizing, photoallergenic or phototoxic when used as intended.
If irritation occurs, discontinue use of product.

Eye: Can have an irritating effect on the eyes.

Ingestion: Ingestion is not an applicable route of entry for intended use.
Ingestion may produce signs of alcohol intoxication.
May be harmful if swallowed. If ingested, seek immediate medical attention.

GHS Phrases: Warning, Flammable Liquid and Vapour.
Warning, May be harmful if swallowed and enters airways.

NFPA: Health = 1, Fire = 3, Reactivity = 0
HMIS III: H*1/F3/PH0

NFPA		HMIS III	
FIRE HAZARD		HEALTH	1
3	0	FLAMMABILITY	3
1		PHYSICAL HAZARDS	0
SPECIFIC HAZARD		PERSONAL PROTECTION	

GHS Classifications: Physical, Flammable Liquids, 3
Health, Aspiration hazard, 2

GHS Phrases: Warning, Flammable liquid and vapour
Warning, May be harmful if swallowed and enters airways

GHS Precautionary Statements: P101 - If medical advice is needed, have product container or label at hand.
P102 - Keep out of reach of children.
P210 - Keep away from heat/sparks/open flames/hot surfaces. No smoking
P301 - IF SWALLOWED: _
P310 - Immediately call a POISON CENTER or doctor/physician.
P331 - Do NOT induce vomiting.

4 FIRST AID MEASURES

- Inhalation:** If respiratory irritation occurs, remove individual to fresh air. If physical product is inhaled get immediate medical attention.
- Skin Contact:** If irritation occurs, discontinue use of product. Promptly flush skin with water until all chemical is removed. Get medical attention if needed.
- Eye Contact:** Flush with large amounts of water. Get medical attention if necessary.
- Ingestion:** If product is ingested seek medical attention. Contact a physician, medical facility or poison control center, for emergency advice. Do not leave individual unattended. If individual is drowsy or unconscious, do not give anything by mouth. Place individual on left side with head down. Do not induce vomiting unless specifically directed by qualified personnel.

Note to Physicians and First Aid Providers:

The major components here are: Isododecane, Silicones and Fragrances.

A full Ingredient Declaration, confirms other INCI listed materials in descending order.

Problems would not normally be anticipated, though adverse reactions can never be ruled out.

5 FIRE FIGHTING MEASURES

- Flash Point:** 23 Degrees Celsius / 73.4 Degrees Fahrenheit
- Flash Point Method:** Tag (Open Cup)
- Autoignition Temp:** 410 Degrees Celsius Isododecane
- LEL:** 0.5 Isododecane
- UEL:** 4.0 Isododecane
- Flammability:** Flammable

Wear self contained breathing apparatus and other protective clothing.

Fires involving bulk product may be extinguished with carbon dioxide (CO₂), dry chemical, and/or foam.

Water sprayed in a direct stream may/can/will scatter and spread fire and should not be used.

Water spray may be used to soak corrugated shipping containers finished product if involved in a fire.

6 ACCIDENTAL RELEASE MEASURES

Avoid contact with eyes. Watch out for slippery conditions.

For large quantities and bulk spill situations:

- Plastic or rubber gloves, eye protection, and apron may be required for clean up of large spills.
- Do not discharge excess product into drains. Spills should be contained.
- Pick up excess with inert absorbant material and place into separate waste container.

Revision Date: 04/07/2015

Page 4 of 8

- Ventilate area and wash spill site with soap and water after material pickup is complete.
- Take care to avoid contact with wet surfaces or walkaways that may become slick when product is present.

Household settings and small spill scenarios:

- Plastic or rubber gloves, eye protection, and apron may be required for clean up of large spills.
- Wipe up with paper towels or sponge.
- Wash area completely with warm soapy water.
- Watch out for slippery conditions.

7

HANDLING AND STORAGE

Handling Precautions:

Do not expose containers to open flame, excessive heat, or direct sunlight. Keep away from sources of ignition. When using, do not eat, drink, or smoke. Consider normal working hygiene. Keep material out of reach of children.

Storage Requirements:

Keep away from heat, sparks, or flames. Storage in large quantities should be in well ventilated cool/dry area.
Store in cool/dry area.

8

EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls:

None for general use.

Personal Protective Equip:

None for general use. Usage of safety glasses/goggles is recommended in bulk situation.

9

PHYSICAL AND CHEMICAL PROPERTIES

Appearance:

Light Amber

Physical State:

Liquid, Viscous

Spec Grav./Density:

0.82 - 0.84 cps (dynamic)

Viscosity:

Not Available

Sat. Vap. Concentrat.:

Not applicable

Flammability:

Flammable Liquid

pH:

Anhydrous Product/Not Applicable

Odor:

Fragranced, Characteristic

Solubility:

Insoluble

Softening Point:

Not Applicable

Percent Volatile:

6%

Flash Point:

23 Degrees Celcius / 73.4 Degrees Fahrenheit

VOC:

6%

10

STABILITY AND REACTIVITY

Stability:

Avoid sources of ignition such as sparks, hot spots, welding flames and lighted cigarettes which may yield toxic and/or corrosive decomposition products.
Stable under normal conditions.

Conditions to Avoid:

None under normal use.
Oxidation promoting conditions (Heat, Sunlight and Air).
Elevated Temperatures and/or Direct Sunlight.

Materials to Avoid:

Strong Oxidizing Agents.

Hazardous Decomposition:

Combustion may produce carbon oxides (CO).
Combustion may produce nitrogen oxides (NO). Combustion may produce formaldehydes.
Combustion will produce carbon dioxide and, possibly toxic chemicals such as carbon monoxide.

Hazardous Polymerization:

Will not occur.

11

TOXICOLOGICAL INFORMATION

Medical Conditions Generally Aggravated by Exposure: Existing dermatological conditions (such as eczema) may be exacerbated.

Chronic Health Hazards: Possible Allergic Dermatitis.

Acute Toxicity:

Oral (LD 50): Unknown

Inhalation (LC 50): Unknown

Skin irritation: Unknown

Eye irritation: Unknown

Sensitization: Unknown

Chronic Toxicity: Unknown

Toxicity Data: (Based on composition)

Eye Effects: Not predicted

Skin Effects: Not predicted

Chronic Effects: Unknown

Accute Inhalation Effects: Not predicted

Accute Oral Effects: May cause stomach irritation. Care should be taken not to ingest in large quantities.

Carcinogenicity: None

OSHA: No

NTP: No

ACGIH: No

IARC: No

Mutagenicity: None

Teratogenicity: None

12

ECOLOGICAL INFORMATION

Readily Biodegradable

The product ingredients are to be safe for the environment at concentrations predicted under normal use scenarios. Packaging components are compatible with the conventional solid waste management. ***Please Recycle***

13

DISPOSAL CONSIDERATIONS

Disposal should be in accordance with Federal, State/Provincial and Local regulations.

For Household Settings: The following instructions are for consumer usage only. Do not discharge product into natural waters without pre-treatment or adequate dilution.

For Non-Household Settings: Products covered by this Safety Data Sheet, in their original form, when disposed as waste, are considered nonhazardous according to Federal RCRA regulations (40 CFR 261). Disposal should be in accordance with local, state and federal regulations.

California Waste Code: 331

14

TRANSPORT INFORMATION

UN #: Un 2286 Category: 3, Proper Shipping Name: Pentamethylheptane

DOT Class: Flammable Liquid (3) #3

Other Than Consumer Packaging: CONTAINERS > 450 Liters (>119 US Gallons)

Code: UN 2286

Proper Shipping Name: Pentamethylheptane

Technical Name: Idododecane (Pentamethylheptane)

Hazard Class: 3

Packing Group: III

Label Statements: Eye Irritant, Harmful May Cause Lung Damage if Swallowed.

In consumer (End User) Packaging: Flammable, Eye Irritant, Consumer Commodity.

Finished packaged product transported by air (IATA): UN2286, Pentamethylheptane, Class 3, PG III, 23C (o.c.), LTD. QTY.

Finished packaged product transported by vessel (IMDG): UN2286, Pentamethylheptane, Class 3, PG III, 23C (o.c.), LTD. QTY.

PA = PA Right-To-Know List of Hazardous Substances

TXAIR = TX Air Contaminants with Health Effects Screening Travel

TSCA = Toxic Substances Control Act

OSHA Regulatory Status

This MSDS Contains valuable information critical to the safe handling and proper use of this product. This MSDS should be retained and available for employees and other users of this product.

Fragrance/Allergen Review

The European Union (EU) has identified 26 fragrance components as potential allergens the threshold limits are set at the following levels:

0.001% for leave on/in products

- Benzyl Salicylate 118-58-1 204-262-9
- Coumarin 91-64-5 202-086-7
- Linalool 78-70-6 201-134-4
- Benzyl Benzoate 120-51-4 204-402-9
- Limonene 5989-27-5 205-331-0
- Alpha-Isomethyl Ionone 127-51-5 204-846-3

For EU Distribution

This product may contain the preceding substances as components of the fragrance/flavor/parfum or aroma.

For U.S. Distribution

No such declaration need be made.
