

## Ford Focus ST – nu også som stationcar

### Ford løfter sløret for den helt nye Focus ST som stationcar.

Ydelse, nydelse og balance. Den nye Focus ST er udviklet af eksperterne hos Ford Performance og kombinerer kompromisløs køredynamik og ydelse med praktiske og familievenlige egenskaber.

De praktiske egenskaber er endnu mere i højsæde i stationcar-udgaven, der nu ser dagens lys. Nyeste generation af Focus ST er mere rummelig end nogensinde med blandt andet øget akselafstand og mere bredde i fronten. For første gang fås Focus ST også med anhængertræk, der gør hverdagens gøremål nemmere.

Dertil er den nye Focus ST udstyret med en bred vifte af avancerede sportsteknologier og førerassistancesystemer, der gør den til den perfekte bil til både familien og på banen.

Den helt nye Focus ST lanceres i Danmark i udstyrsvarianterne ST2 og ST3 i løbet af sommeren 2019.

**About Ford Motor Company**

*Ford Motor Company is a global company based in Dearborn, Michigan. The company designs, manufactures, markets and services a full line of Ford cars, trucks, SUVs, electrified vehicles and Lincoln luxury vehicles, provides financial services through Ford Motor Credit Company and is pursuing leadership positions in electrification, autonomous vehicles and mobility solutions. Ford employs approximately 196,000 people worldwide. For more information regarding Ford, its products and Ford Motor Credit Company, please visit [www.corporate.ford.com](http://www.corporate.ford.com).*

***Ford of Europe** is responsible for producing, selling and servicing Ford brand vehicles in 50 individual markets and employs approximately 49,000 employees at its wholly owned facilities and approximately 63,000 people when joint ventures and unconsolidated businesses are included. In addition to Ford Motor Credit Company, Ford Europe operations include Ford Customer Service Division and 23 manufacturing facilities (16 wholly owned or consolidated joint venture facilities and seven unconsolidated joint venture facilities). The first Ford cars were shipped to Europe in 1903 – the same year Ford Motor Company was founded. European production started in 1911.*
