V.Ships Offshore wins contract with CMM to provide full technical ship management for five new oil spill recovery vessels in Brazil

V.Ships Offshore, part of the V.Group, has been awarded a ship management contract by Compagnie Maritime Monegasque Offshore Ltd (CMM) to provide full technical and crew management services for a new fleet of five oil spill recovery vessels in Brazil.

The ship management services will be delivered from the V.Ships Offshore office in Rio de Janeiro and builds on an existing relationship with CMM. More than 90 specialised seafarer positions will be deployed on board the vessels.

Alessandro Ciochi, Director V.Ships Offshore said: “We are delighted to be further developing our relationship with CMM and look forward to continuing to use our expertise to deliver offshore marine asset management solutions for them.”
