

BE FIRMLY IN CONTROL WITH MYNEWSDESK'S HOSTED PRESSROOM

Take your social media newsroom into your own hands and gain full control over your online communication channels. Now Mynewsdesk offers you the possibility to cut your PR-workload and simplify your daily work-flow by creating your own hosted pressroom.

It's quick and easy, and cost effective.

You can create a customized look-and-feel using our simple design interface, avoiding high costs associated with third-party web design firms or website maintenance fees. Add your own style by choosing the color schemes, fonts, and logos related to your brand. Then, assign a unique, easy-to-remember domain to your personalized newsroom.

load high-resolution images. Just log in to Mynewsdesk and get started!

Everything in one place.

Cut your workload by avoiding doing the same job over and over again. Mynewsdesk's Hosted Pressroom allows you to publish and share press releases from just one location. However, all your press material will appear on both your Mynewsdesk newsroom, as well as your hosted pressroom. Essentially you can manage several communication channels simultaneously. And best of all, your hosted pressroom boasts the same features and statistical analysis tools as your original Mynewsdesk social media newsroom.

Do-it-yourself

Simplify your work-flow by updating everything in your pressroom yourself. With the hosted pressroom, you no longer have to be dependent on an overworked Webmaster or a complicated CMS to publish a press release or up-

MYNEWSDESK – THE NEWS EXCHANGE SITE

Mynewsdesk makes it faster and easier for companies, journalists, bloggers and opinion leaders to gain relevant exposure – on their own terms. It matches interested users with press releases, videos, images and other content, all instantly search engine optimized and automatically published on social media platforms. The site serves more than 10,000 companies and has a 97% customer satisfaction rate.
