ETIHAD AIRWAYS ENGINEERING AND SATAIR SIGN MEMORANDUM OF UNDERSTANDING AT MRO MIDDLE EAST

Abu Dhabi, United Arab Emirates: Etihad Airways Engineering, the largest commercial aircraft maintenance, repair and overhaul (MRO) services provider in the Middle East, has signed a Memorandum of Understanding (MoU) with Satair, one of the world's largest aviation spares and solution providers. The signing ceremony took place at MRO Middle East 2019 in Dubai with Abdul Khaliq Saeed, Chief Executive Officer, Etihad Airways Engineering and Terry Stone, Managing Director and Head of Sales and Support EMEA, Satair.

Abdul Khaliq Saeed, Etihad Airways Engineering said: "We have a long-standing relationship with Satair and look forward to strengthening it further with this new MoU. As we continue to expand our extensive MRO capabilities and expand our global presence, this partnership will help us explore ways to enhance our supply chain function and facilitate parts availability for customers from all over the world."

Terry Stone, Satair, stated: "We are delighted to engage even further with Etihad Airways Engineering and we look forward to putting Satair's forecasting and planning capabilities into play and exploring the many opportunities that lie in this forthcoming partnership."

The MoU covers supply chain solutions that will ensure worldwide parts availability for selected aircraft parts. While this signing marks the first step towards an official agreement between Satair and Etihad Airways Engineering, the business relationship between the two dates back more than 25 years.

About Etihad Airways Engineering

Etihad Airways Engineering is the largest commercial aircraft maintenance, repair and overhaul (MRO) services provider in the Middle East. As a subsidiary of the Etihad Aviation Group, the company offers maintenance services around the clock, including design, advanced composite repair, cabin refurbishment and component services, from its state-of-the-art facility adjacent to Abu Dhabi International Airport. Aircraft hangars at the facility cover approximately 66,000 sq metres, including 10,000 sq metres of aircraft painting facilities and a custom-designed hangar that can accommodate up to three Airbus A380 aircraft simultaneously. The company has successfully completed maintenance projects over the years for airlines across the world. The company's services and capabilities are available in detail at www.etihadengineering.com and its news and updates are posted regularly online on LinkedIn at <http://bit.ly/EYEngLinkedIn>

About Satair

It's time to reboot the way we work together in the aviation industry. With Satair you get more than a parts and service supplier: You get a flexible solution partner that understands the complexity of your business - and makes it our business to help you in the way that best fits your needs. We're planning to improve every aspect of how we work together. To make sure we grow together, instead of growing apart. We need to talk. Satair is a stand-alone AIRBUS services company. Visit www.satair.com.
