

Gulfsat and Eutelsat welcome Kuwait TV's Al-Qurain TV in HD to EUTELSAT 8 West B satellite

- ***Kuwait TV now broadcasting nine HD channels exclusively from EUTELSAT 8 West B***
- ***HD acceleration in Middle East and North Africa satellite TV landscape***

Dubai, Paris, 23 March 2017 - Kuwait TV, the official Kuwaiti state broadcaster and part of the Kuwaiti Ministry of Information, announced today at Cabsat Dubai that the new Al-Qurain TV channel has launched in its free-to-air HD platform hosted on the EUTELSAT 8 West B satellite. The capacity used by Kuwait TV is provided by Gulfsat, Eutelsat's long-term partner.

Launched one month ago, Al-Qurain TV is a heritage-based channel specialising in vintage Kuwaiti series and programmes. Kuwait TV, that amasses over 50 years of experience, broadcasts Kuwaiti-produced programmes in the Middle East and around the world. It completed the switch to HD through Gulfsat in 2015, coinciding with the arrival of EUTELSAT 8 West B. With the launch of this latest channel there are now nine Kuwait TV channels available free-to-air exclusively from EUTELSAT 8 West B in both SD and HD versions.

Ghassan Murat, Vice President of Business Development and Strategy at Eutelsat Dubai, said: *"The addition of Al-Qurain TV to Kuwait TV's platform is indicative of a new wave of growth enabled by our EUTELSAT 8 West B satellite, particularly for HD channels that have increased by 50% over the last year."*

Mohammed AlHaj, Chairman and CEO of Gulfsat, said: *"We are delighted to support Kuwait TV's new venture and to be part of the expansion of Kuwait's broadcasting landscape."*

Meshal Al-Makled, Under Secretary of the Department of Engineering at the Kuwait Ministry of Information, added: *"With the launch in 2015 of Kuwait TV's all-HD platform via the EUTELSAT 8 West B satellite, our country fully embraced key technological trends to give viewers the full benefits of superior image quality."*

About Eutelsat Communications

Established in 1977, Eutelsat Communications (Euronext Paris: ETL, ISIN code: FR0010221234) is one of the world's leading and most experienced operators of communications satellites. The company provides capacity on 39 satellites to clients that include broadcasters and broadcasting associations, pay-TV operators, video, data and Internet service providers, enterprises and government agencies. Eutelsat's satellites provide ubiquitous coverage of Europe, the Middle East, Africa, Asia-Pacific and the Americas, enabling video, data, broadband and government communications to be established irrespective of a user's location. Headquartered in Paris, with offices and teleports around the globe, Eutelsat represents a workforce of 1,000 men and women from 37 countries who are experts in their fields and work with clients to deliver the highest quality of service.
