Operating Indicators for April 2015

SINGAPORE, 2 June 2015 – Singapore Changi Airport handled 4.39 million passenger movements in April 2015, up 0.2% from a year ago. On the cargo front, airfreight shipments at Changi grew 1.6% to 153,400 tonnes. However, there were fewer aircraft landings and takeoffs during the month, down 0.4% on-year to 28,260.

For the month of April, travel demand to Northeast Asia and South Asia continued to drive passenger traffic growth, offset by a decline in Europe travel. Among Changi's top 10 cities, there were double-digit increases in passenger movements to and from Bangkok, Ho Chi Minh City and Tokyo, compared to April 2014.

As at 1 May 2015, more than 100 airlines operate at Changi Airport, connecting Singapore to over 320 cities in some 80 countries and territories worldwide. With more than 6,600 weekly scheduled flights, an aircraft takes off or lands at Changi roughly once every 90 seconds.
