

Building the Ford Transit Family

2014 Transit

- Ford Transit will offer a new diesel engine and 3.5-liter EcoBoost engine, also shared with Ford F-150
- Transit promises at least 25 percent better fuel economy for lower operating costs compared to E-Series
- A worthy successor to E-Series with multiple roof heights and wheelbases
- Durability tested to Built Ford Tough standards and with fleet customers

*European market. Transit shown
